

# 360° EVENT LIGHTING

Luminite is an innovation in event lighting. It is an inflatable lighting tower with back-lit branding space that will increase sponsor visibility while contributing to public safety at events. Highly durable, quiet, easy to use and NEC approved for wet locations, the towers provide an impressive amount of ambient light. Each tower stands 15 feet high with an 8 foot, back-lit, brandable area below the lamp.

Let Luminite light up your profits, raise revenues, reduce risk, and improve safety while prominently and effectively displaying corporate sponsorship at your next event!

# Light Up the Site... Quickly and Easily

The Luminite inflatable light tower is an innovative new product designed to light large areas in less than three minutes. Rugged, portable and adaptable, it is big enough for any commercial application. It is easier to use, much faster to set up and is friendlier to the environment than traditional lighting trailers. Luminite towers reduce work site accidents, improve site safety and security, reduce theft and vandalism, improve productivity and save your company time and money. Throughout North America, Luminite towers are in use by fire rescue, law enforcement, disaster relief agencies, construction sites, mining operations and public works projects.
